PROJECTS

Flood Monitoring and Alerting System Using IOT (Diploma Project)

- **Objective:** Designed and tested a real-time flood monitoring and alerting system using sensors and IoT technology that continuously tracks water levels providing early warnings to prevent damage and ensure public safety.
- **Key Features:** Developed an IoT-based system to monitor water levels using ultrasonic/float sensors.

GSM & IoT Based Smart Agriculture Monitoring System

- **Objectives:** Developed and implemented an IoT-based system utilizing GSM technology to automate real-time environmental monitoring (soil moisture, temperature, water level) in agricultural setting.
- **Key Features:** Developed an IoT system utilizing sensors (soil moisture, temperature, water level) to provide continuous, real-time environmental data for precision agriculture.

CERTIFICATIONS

- **Certificate of Participation** – State Level Project Exhibition and Competition ROTAREX, Satara
- **C Language Course** - Skill Infotech, Satara
- **Certification of Participation** – AAVISHKAR Project Competition, Satara
- **MS-CIT Computer Course** – Saishubam, Satara
